

# 2010 Clean Air Bulletin April is “Ride the Metrolink” Month

## Clean Air Options

Bicycle

Carpool

Metrolink

Park & Ride

Public Transit

Reduce Speed

Ride Lightrail

Ridematch

Rideshare

Telework

Vanpool

Walk

Attention Employees!

**Metrolink** is an effective regional rail system operated with funding from several transportation agencies, including the Los Angeles County Metropolitan

Transportation Authority (Metro). With more than 500 route miles and 55 stations in service, commuters in a five-county region really can “**Ride the Metrolink**” to work.

The strategically located network of rail lines and stations brings commuters into greater Los Angeles County from San Bernardino, Riverside, Ventura and Orange Counties. Instead of sitting in traffic on congested freeways and roads, you can “**Ride the Metrolink**” to work.

Travelling by train is a great way to meet people, catch up on reading materials and, more importantly, cut down on vehicle emissions from solo commutes to work. For train schedules and how to connect with other transit options, visit [www.metrolinktrains.com](http://www.metrolinktrains.com).

In addition, you can “**Ride the Metrolink**” on weekends, holidays or during vacations. Surely you can recall the “fun” days when you were a child and rode the train or, in the case of Los Angeles residents, the Red Car. Relive those good times, save money and contribute to cleaner air by choosing to “**Ride the Metrolink.**”

After all,

**Clean Air is Everybody’s Business!!**
